

Poor little fellow! He coughs so hard he cannot sleep. That makes him weak and sickly all the next day. His brother thinks this coughing is terrible. So do we, for we know that just a few doses of

Ayer's Cherry Pectoral will stop the cough. For sixty years it has been the standard remedy with men, women, and children for colds, coughs, and all throat and lung diseases. It contains no narcotic or poison of any kind. Be sure that you get Ayer's Cherry Pectoral. Accept no cheap and worthless substitute.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

DOING GOOD WORK

Road Supervisor Johnson is getting ready for the coming of the fleet and his latest move is certain to meet with the approbation of the Fleet Reception Committee and of the general public. This is relative to the paving of Richards street, which will be the principal avenue through which the thousands of sailors coming from the battleships will travel to reach the business section of the city.

Work on the macadamizing of Richards street from the waterfront, by the old Fishmarket, to King street was commenced this morning and will be hurried through. This work follows the macadamizing of Millard street, which runs from King street, by the Opera House, toward the waterfront. It is proposed to place all the streets in this section of the city in the best possible condition before the arrival of the battleship fleet.

Senator Cullom, chairman of the senate committee on foreign relations, informed the president on April 11 that his committee would consider the Venezuelan correspondence at its earliest convenience. He had no idea what the committee would do, he said, but on general principles he thought President Castro should have a good spanking.

In the suit brought in San Francisco by Ruef against Judge Dunne, Landdon, Heney, Spreckels, Burns, Biggy and others for \$4,650, the cost of the boss' luxurious maintenance in a private prison, notices of motion were filed in behalf of Spreckels and Burns to have the greater part of the complaint stricken out on the ground that the allegations of Ruef are sham, irrelevant and redundant.

Believing that the water problem is the most serious question before the people of San Francisco at the present time and that the gravity of the situation has been greatly augmented by the deadlock between the city and the Spring Valley company, Mayor Taylor and those associated with him in the city government will co-operate with the local civic organizations in a big public meeting at which the entire matter will be discussed.

Oliver N. Moxey, central figure in the once famous Moxey trial, and who on his wedding day four years ago was given a gift of an estate valued at \$250,000 by his wife, is today a street-car conductor on the McAllister line, San Francisco, not one single dollar of the fortune for which he battled so hard in the courts and for which he faced the beam-riding of his reputation having come to him.

The four delegates at large from New York are General Stewart L. Woodford, ex-Mayor Seth Low, Frederick R. Hazzard of Syracuse and E. H. Butler of Buffalo. They are instructed to use all honorable means to secure the nomination of Governor Hughes for President. The platform indorses in strong terms the administration of President Roosevelt and Governor Hughes and commends the policies of the federal administration. A revision of the tariff is favored and the action of congress in declining to revise the tariff by piecemeal is indorsed. Changes are advocated in the currency laws to provide a more elastic and satisfactory monetary system.

Norman Hamilton, 15 years old, attempted suicide in San Francisco by inhaling gas. Disheartenment over hardships had moved him to the last desperate resort of suffering mortals. Four years ago his mother died and he was left to the care of his father, a cook in the Terminus hotel at Vancouver, B. C., who made him perform all kinds of drudgery and beat him constantly. The boy stood the cruel treatment as long as he could, and two months ago ran away. Since then he has worked his way along the coast, cooking on small tugs and sailing vessels, and earning what he could, but scarcely making more than his board and lodging. He arrived in Oakland recently and was picked up by a policeman but allowed to go his way after begging piteously to be released.

YOU WANT The News First.....

You Want Your Ads Read

Here Is Some Advice---

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All The World For The Day Just Ended---

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it.

It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The morning paper the day after.

The evening paper presents the news first. The morning paper merely elaborates it.

The evening paper prints daylight news. The morning paper takes what is left.
